

Crossroads Institute Academic Program

Crossroads Institute uses multiple techniques for helping students overcome learning challenges.

For many students, underlying neurocognitive issues or delayed neurodevelopment may be part of their challenges.

At Crossroads we go beyond the academic profile and look deeper into the neurocognitive abilities, using our Integrated Cognitive Abilities Program (ICAP).

- Cognitive Processing
- Memory
- Auditory Processing
- Fine and Gross Motor Skills
- Visual Processing
- Personal and Social Behavior
- Speech and Language
- Emotional Behavior

We have 4 levels of programs available:

Making Strides

- Learning challenged
- 2-3 standard deviations below norm
- 1-2 grade levels behind
- Currently receiving special education services

Academic Nourishment

- 1 standard deviation below norm
- Grade level but struggling
- At risk

Accelerated Learning

- 1-3 standard deviations above norm
- Gifted/Advanced studies
- College bound

College Prep

- Pre-college entrance
- Current college student

- Returning college student
